## DESCRIPTION

- **NEW and Exclusive to Snapper Display Systems.**
- **Thinnest fabric light box in Australia only 17mm thin (standard fabric light boxes are 90mm)**
- Designed and manufactured in Australia.
- Using light guide panels achieves the perfect lighting, giving you the most consistent illumination across the entire image
- Crisp and sharp (no ink bleeding)
- More economical than standard light boxes especially for larger sizes
- Dimensionally stable and universally applicable for a host of uses
- Latest and brightest of LEDs coupled with the newest technology in light guide panels
- The image goes from edge to edge
- The light box has a totally flat, flush front face
- Can be recessed and still operate unhindered
- Custom sizes can be made
- Locally made
- Colour options include silver
- Custom colours also available
