WELCOME TO SNAPPER DISPLAY SYSTEMS

If you want your message to be read and remembered then think inside the box! With an extensive range of illumination systems and signage products, Snapper Display Systems will ensure your message gets seen in a brand-new light. Established in 1999, and 100% Australian owned and operated, Snapper Display Systems are proud of our expertise and our ongoing passion for our craft. Taking great pride in our products and workmanship, we consider ourselves to be Display Masters and are widely regarded as the premier Lightbox Signage company in Australia. As leading manufacturers and wholesalers of premium quality Snap Frames, Lockable Frames, Lockable Notice Boards, Poster Light Boxes, Illuminated Sign Boxes, Poster Display Stands, Poster Hangers, A-Frame Signs, Chalk Boards, Sidewalk Signs, Frameless Poster Holders, Frameless Fabric Light Boxes and Poster Displays, Wire Hanging Systems, Sign Mounts, Acrylic Brochure Holders and much more, you can be sure that we have all your signage needs covered.

LET THERE BE LIGHT

Manufactured to meet your requirements In today's busy market, it is important that your message stands out from the crowd. That's why you'll be pleased to hear we specialise in the design and manufacture of captivating back-lit and edge-lit display solutions. Custom built to precise specifications using our modern and state-of-the-art automated machinery, you can be sure that your signage will stand above the rest - whilst at the same time reducing your carbon footprint with our energy efficient and cost-effective LED lighting technology. Providing further peace of mind, our products are all built to the highest Australian standards, and come with a 12 month warranty. We also stock standard sizes and offer delivery to most cities around Australia.

MANUFACTURED TO MEET YOUR REQUIREMENTS - CUSTOM OR STANDARD DISPLAY SYSTEMS AUSTRALIA WIDE

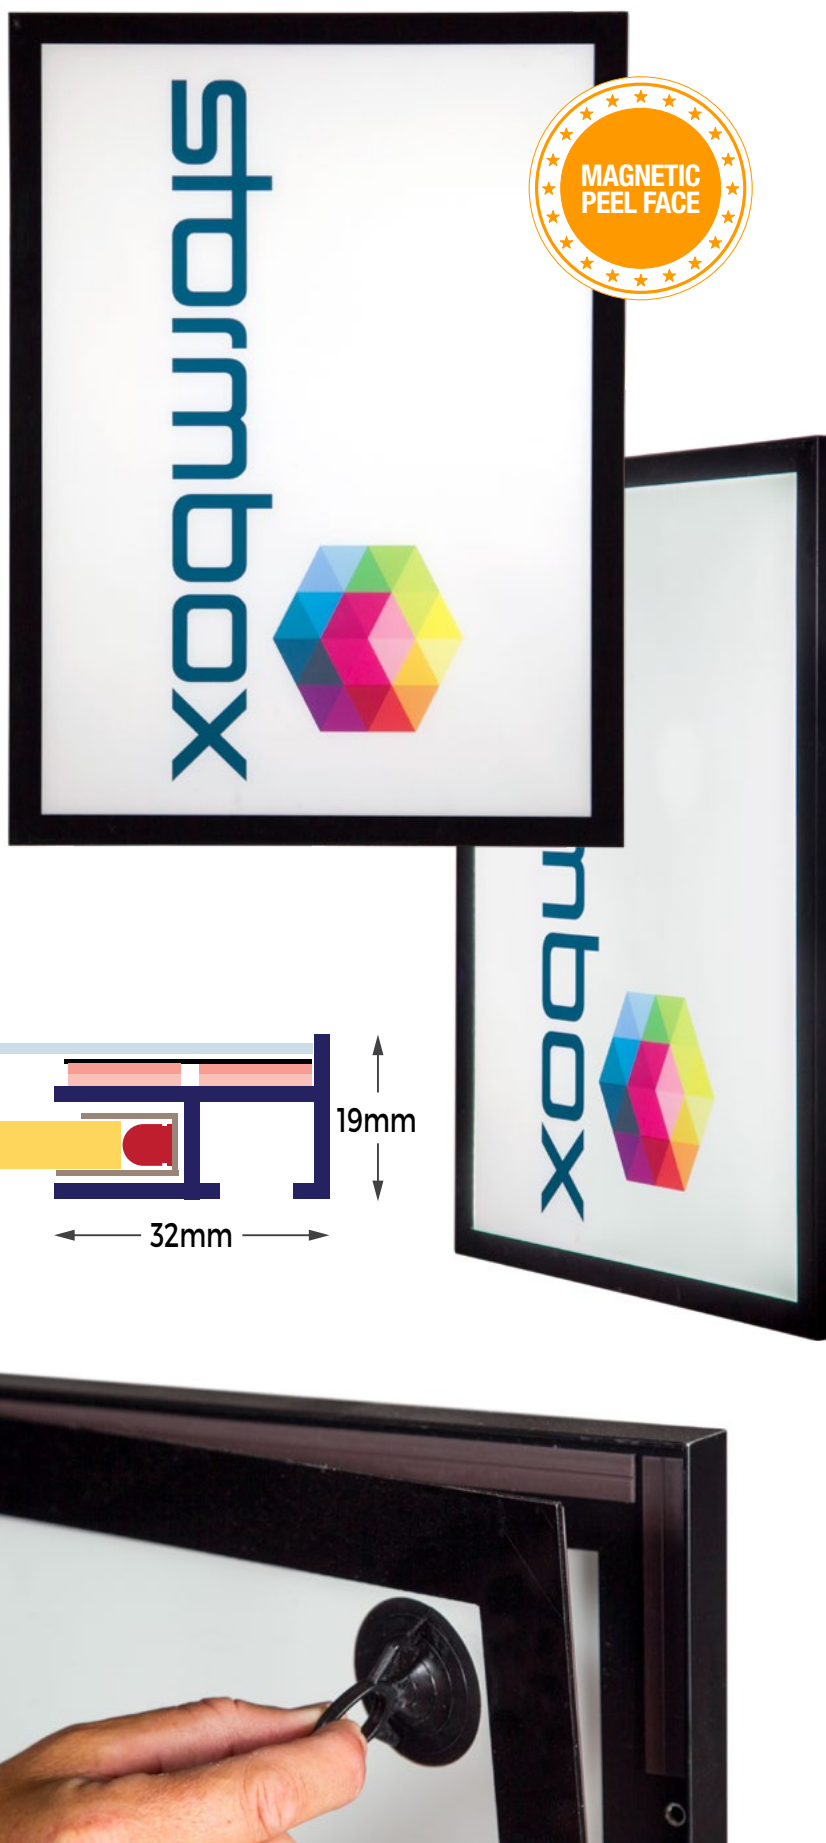

If you have crafted the perfect message or created the perfect design but are unsure as to how to display it, Snapper Display Systems Custom Solutions will help. Our friendly team boast extensive knowledge and experience in providing customised framing and signage solutions that will enable you to maximise your message and impact - Simply tell us the specifications and we will do the rest.

Snap Frames are ideally suited for internal use, our signs can highlight your brand or message above counters and reception areas, giving your brand a polished and professional look.

Over the years, we have yet to encounter a project we can't produce, so give us a call today and see why Snapper Display Systems are Australia's preferred display manufacturers and suppliers.

DESCRIPTION

Customise your own image, photo or painting into a light box display (you will need a digital file for images i.e if you have a painting or photo you will need to digitalise the file for printing onto a translucent photo film).

Our LED Art Light Boxes are specially designed to enhance the impact of photographic images. Custom designed and manufactured to the dimensions of the artwork and the style preferred, they're favoured by artists for their exceptional quality and the value they add to each piece of art. Featuring both backlit and edge lit LED technology, these lightboxes provide a clean, consistent light source. Fine borders keep the focus on the work being displayed, and the colour of both the frame and the face panel borders can be powder coated to match a colour scheme.

- From 19mm to 104mm (options available)
- Options for easy image change-out and wall mounting - Change your image in seconds
- Low power consumption
- No heat generated
- No maintenance required
- Ideal for artists, corporate offices, art galleries, private homes, events and displays.
- Totally flush face light box
- Multiple light boxes can be butted up against each other
- Can be recessed
- Tamper safe
- Aluminium – weather resistant – corrosion free
- Eco-friendly
- Colour option (in stock): Silver anodised frame with silver painted border, Black frame with black painted border
- **Custom colours are also available**

DESCRIPTION

VERSATILE ECONOMIC LIGHT BOX

- Slimline extrusion forms a LED edge-lit light box fabric poster frame
- More economical than standard light boxes especially for larger sizes
- Dimensionally stable and universally applicable for a host of uses
- Latest and brightest of LEDs coupled with the newest technology in light guide panels
- The image goes from edge to edge
- The light box has a totally flat, flush front face
- Can be recessed and still operate unhindered
- Custom sizes can be made
- Locally made
- Colour options include silver
- Custom colours also available

SPECIFICATIONS

- Aluminium extrusion is 40mm deep, 40mm wide at rear, 2mm at front
- Sizes from A4 up to 3080x1040mm or 2460x1240mm
- Extruded profiles are joined together with easily fitted screw corners
- High efficiency, low carbon foot print
- LED Edge lit panels are normally used but EdgeMax backlit LEDs are also an option
- LEDs are normally placed on the 2 long sides for units
- For brighter light boxes LEDs can be placed on all 4 sides

CUSTOM OPTIONS

- **Custom options are available on this product** (please request a quote)

DESCRIPTION

FROM THE FRONT THIS FABRIC POSTER DISPLAY APPEARS COMPLETELY FRAMELESS

- The KS90AF45 extrusion is 90mm wide and forms an illuminated light box fabric poster frame
- Dimensionally stable and universally applicable for a host of uses
- Can be mounted in any indoor location, including retail wall space and trade show exhibition systems
- Only a 90mm (depth) section of aluminium extrusion is seen from the side
- Image extends from edge to edge, covering 100% of the space used
- Different lighting options include Penta Wide and back lit EdgeMax options for back lighting
- Edge lit panels can also be used if necessary
- LEDs are normally placed on the 2 long sides for units up to 2m wide
- For units up to 3m wide 2 strings of TE EdgeMax LEDs are placed on each long side
- For brighter light boxes LEDs can be placed on all 4 sides
- Colour option: Silver
- Custom colours are also available

SPECIFICATIONS

- 90mm deep
- 49mm wide at the rear
- Sizes from A4 up to 10x3m
- LED strips or matrix
- LED system only uses 33% of the electricity of a traditional fluorescent lighting system
- LEDs will outlast the fluorescent tubes 5 times
- LEDs produce very little heat
- Can be delivered in kit form, thus saving space and money for packaging and shipping
- Extruded profiles are joined together with easily fitted screw corners
- Fabric print is held in place by silicone beading which is stitched along the perimeter of the stretch fabric

DESCRIPTION

NEWEST LED TECHNOLOGY

- The KD60 extrusion forms a 60mm deep, 38mm wide an illuminated light box frame
- Particularly useful for large light boxes as the 60mm depth, although still very thin, allows back lighting with the use of LEDs
- Backlit LED light boxes can be made larger than edge lit ones with the added benefit of increased brightness and more even illumination
- Can be mounted in any indoor location, including retail wall space and trade show exhibition systems
- From the front the poster display is completely frameless
- Only a 60mm (depth) section of aluminium extrusion is seen from the side
- Image extends from edge to edge, covering 100% of the space used
- Colour options include silver. Custom colours also available.

SPECIFICATIONS

- 60mm deep and 38mm wide aluminium extrusion
- Sizes from A4 up to currently 3080x1040mm or 2460x1240mm, larger sizes possible soon
- Extruded profiles are joined together with easily fitted screw corners
- Standard are LED Edge lit panels, but EdgeMax backlit LEDs or an LED matrix is also an option
- The power supply can be housed in the light box if the 50x50 matrix option or back lit EdgeMax LEDs are used
- Free standing or suspended
- Fabric print is held in place by silicone beading which is stitched along the perimeter of the stretch fabric
- Double sided option if not wall mounted
- Lit or non-lit
- Easily assembled by handy man

CUSTOM OPTIONS

- **Custom options are available on this product** (please request a quote)
